The iconic BMW kidney grille and the aerodynamic extensions that run from the front apron to the rear enhances the overall M design that thrills at first glance.

Redesigned M aerodynamic mirrors help reduce drag.

A carbon fibre roof with aerodynamic fins reduces weight and drag, ensuring maximum performance on road and track alike.

Eye-catching rear diffuser, flared wheel arches and 100mm M quad tailpipes that are 10% wider than previous models help you stand out from the crowd.
